CIRCULATION & COMMEMORATIVE; LARGE & SHORT SERIES

Walcownia Metali „Dziedzice” S.A. has been producing coin blanks for more than 25 years and we know our stuff. We specialize in copper alloy blanks as well as aluminum and steel. Our aim is to maintain position of reliable supplier combining the features of good quality, perfect lead time and volume flexibility.

We are equipped in two lines for production of blanks. The first one was designed for circulation blanks while the second one was created to meet demand of customers searching for better surface quality at reasonable price.

Thanks to two precise cold rolling mills and our tool shop we are able to reduce the strip's thickness to the desired gauge and offer the required samples within short period of time.

BLANKS FOR TOKENS

Following the demand for short series we are pleased to offer CuZn37 blanks for the production of brass tokens of multiply purposes. The blanks are rimmed with the characteristic raised edge profile and heat treated, providing excellent striking properties. Surface treatment provides shiny look and the visual inspection assures, that the blanks meet the highest standards.
