To whom it may concern

Concerns: obligation of providing information about harmful substances contained in Products manufactured in Walcownia Metali „Dzierdzice” S.A.

Information about harmful substances contained in products and semi products manufactured by Walcownia Metali „Dzierdzice” S.A. acc. to RoHs III Directive no 2015/863 UE.

Walcownia Metali „Dzierdzice” S.A. with seat in Czechowice-Dzierdzice ul. Kaniowska 3, informs, that none of the manufactured products or semi products contain substances such as:

- Hg – Mercury,**
- PBB – Polybrominated Biphenyls,**
- PBDE – Polybrominated Diphenyl Ethers,**
- DEHP – Bis (2-Ethylhexyl) phthalate,**
- BBP – Benzyl butyl phthalate,**
- DBP – Dibutyl phthalate,**
- DIBP – Diisobutyl phthalate,**

Content of other substances mentioned in the Directive and occurring in goods manufactured by Walcownia Metali „Dzierdzice” S.A. is the following:

- ¹⁾Pb – lead – up to 4 % occurs in rods, tubes and strips in leaded brass alloys,**
- ²⁾Pb – lead – up to 0,1%,**
- ²⁾Cd – cadmium – up to 0,01%,**
- ²⁾Cr(VI) – hexavalent chromium – up to 0,1%.**

Comments:

- 1) lead – as a chemical element of leaded brass alloy - Annex III p. 6c to the Directive 2011/65/UE allows to use up to 4 % Pb,
- 2) lead, cadm and hexavalent chromium– Annex II to Directive 2011/65/UE describes max values and their concentration allowed by weight in uniform materials.
